Rockville, MD 20852

Dear Commissioner Henney:

I am in support of the petition put out by the Center for Food Safety and the Organic Consumers Association with 50 other groups. It is very important to me that the genetically engineered food ingredients and crops be removed from the market and put through rigorous testing. It seems extremely irresponsible not to do so. I am concerned for my children's generation and future generations.

Sincerely,

Barrie Colbath
